

Guardian Restoration Partners Acquires Empact Construction Services, Inc.

DENVER, CO — Dec. 1, 2025 — [Guardian Restoration Partners](#) (“Guardian”), a platform focused on partnering with and building exceptional residential restoration businesses, announced today its partnership with Empact Construction Services, Inc. (nka: [GoDry Chicago](#)) (the “Company”), a full-service restoration provider based in Chicago, Illinois.

GoDry joined Guardian as the platform’s 11th acquisition since its April 2024 launch, contributing to the momentum that has now grown the platform to 14 acquisitions and furthering Guardian’s mission to support the growth of leading local restoration brands.

Founded and led by co-owners Matt Fleming and Elliot Offenbach, GoDry initially entered the restoration market with a focus on rebuild services. Over time, the Company transitioned into a full-service provider and rapidly expanded its water mitigation capabilities across multiple channels. Both Fleming and Offenbach will remain with the company post-close.

“Joining Guardian Restoration Partners marks an exciting new chapter for GoDry. We’re proud of the reputation we’ve built here in Chicago and partnering with Guardian allows us to further accelerate our momentum,” said Matt Fleming, President of GoDry. Elliot Offenbach, Vice President, added, “with Guardian’s resources, national expertise, and shared commitment to quality, we’re positioned to deliver even better services and scale rapidly across Chicagoland.”

Guardian will partner closely with GoDry to advance its operational capabilities, continue to develop and supplement its team, and invest in the systems that support anticipated growth. While continuing to operate under the GoDry brand, the Company will be supported by Guardian’s national platform and operational expertise to further enhance growth and service quality in the Chicago market.

“We are thrilled to welcome the GoDry team to the Guardian platform,” said Bruno Slosse, CEO of Guardian. “Building on their historical rebuild expertise, we look forward to driving accelerated growth in water mitigation services and strengthening their full-service offerings as we expand into the Chicagoland market.”

About Guardian Restoration Partners

Guardian partners with and builds exceptional restoration service providers so that every property owner can get the emergency help they need. Backed by [Alpine Investors](#), Guardian seeks to help local restoration business owners guard their legacies and unlock growth through talent development, technology investments and operational support.
